Certificates

- **Hybrid Multi Cloud** – LinuxWorld Informatics
- **Git & Github** – LinuxWorld Informatics
- **Shell Scripting** – LinuxWorld Informatics

Projects

- **Random Password Generator** – Developed a web app using ReactJS. This app gives user a choice of what they want their password to contain. The user can select the checkboxes and then just slide the slider to the desired characters and then copy the password to the clipboard.

- **IWWAR** – Developed a website which convert the 2D Floor Plan to 3D Model. The user have to upload their floor plans on the website. The website converts the floor plan to 3D Model and upload that model to a marker. The user then open the url link provided on the website and scans a marker via webcam or mobile camera. The 3D Model is then augmented over the marker and user can rotate, zoom in and out to see the whole 3D structure.

- **Text-Utils App** – Developed Text-Utils Website which provide text manipulation services. The user can type or paste the text in the given area and then can manipulate the data using the given options. The options are : Copy the text, Removing extra spaces, changing everything to upper or lowercase. Also tells the average time in which user can read the given/written text.
- **NewsApp** – Website created using the **newsapi** to get the latest news and of different categories.
- **Service Hosting on AWS VPC** – Hosted Wordpress on AWS VPC.

Technical Skills

- **Javascript Library** – ReactJS.
- **Programimng Languages** – C, C++, Javascript.
- **Development Tools** – Git, Vim.
- **Management Tool** – Jira.
- **Scripting Language** – Bash.
- **Cloud Platform** – AWS.
- **Containerization Tool** – Docker.

Extras

- **Strengths** – Hard Working, Eager to learn new technologies.
- **Weakness** – Too detail oriented.
- **Hobbies** – Playing Table Tennis and Watching Anime.
